TESTIMONIAL LETTER RE PRESTON CONSTRUCTION GROUP

*Mick and Mike Preston added a very large extension to our country home with which we were very happy so when it came time to build our retirement home it was very clear who we would ask to build it. When we first approached PCG to build our new home we found Mick and Mike Preston very approachable and open to suggestions and discussion re our plans and this continued during the building stage. They had a good variety of floor plans of their own if we wished to use those.*

*During the building process they made sure that any contractors (painters/electricians/plumbers etc) completed their work on time and we were kept informed of what was happening and were welcome on site at any time.*

*The workmanship at Preston Construction Group is very impressive and they employ experienced carpenters. We are very pleased with the final project of a sturdy, well-built house which was completed on time and within budget.*

*We have been living in our home for four years and have had no problems. We would be happy to recommend PCG to anyone who is considering any building work.*

*Grahame and Kathryn Barrett*
