Looking for a builder with the Highest Quality and Friendliest Five Star Service?  
Looking for a builder that actually cares about your Interests and Ideas in your home?  
Looking for a builder with Years of Experience and Pride in their Work?  
Well! Have I got the builder for you, Preston Construction in my opinion TICK all the boxes!  
We got them to do an extension on our house they transformed a very sad pagola area into an excellent entertaining room.  
We were so happy with the way they presented themselves and with the quality of the materials used and the workmanship.  
These guys really take pride in what they do and actually care about the ideas and vision that you have to suit your style and budget.  
I cannot say enough about how they build with precision and excellence.  
I cannot fault anything they have done for us.  
We were so impressed we got them back to extend our workshop.  
If you are truly looking for Excellent Exceptional Quality and Reasonable Prices then these are the builders for you.

Sincerely,
